GRAND DUKE SERGIUS VICTIM OF ASSASSIN

Bomb Thrown Beneath His Carriage Which Is Demolished.

SEVERAL STUDENTS IN CUSTODY

General Crippenburg, Formerly In Command of Second Manchurian Army, Returns to St. Petersburg. Claims Kuropatkin Refused Help.

London, Feb. 18.—Another dispatch to Reuter's Telegram company, from St. Petersburg, says a later telephone message from Moscow states that the Grand Duke Sergius was assassinated while driving towards the Kremlin and near the court of justice. His carriage was followed by another vehicle containing two men. A bomb was thrown beneath the grand duke's

carriage, there was a violent explosion, the carriage was shattered and the Grand Duke killed.

The assassins were arrested.

One of them was wounded dangerously. Several students have been taken into custody.

The Grand Duke Sergius, uncle of the Russian emperor, and formerly governor general of Moscow, is understood to have been condemned to death by the revolutionary party in December last. The governor generalship of Moscow was abolished early in the year, and the Grand Duke, according to dispatches from Moscow on Jan. 4, kept closely to the well guarded Nickouski palace on the outskirts of Moscow, retaining his position of comander in chief of the military district. Later in January, however, it was announced that the Grand Duke had sought refuge in one of the palaces of the Kremlin. He has been classed as the most reactionary member of the imperial family, as the head of what is referred to as the war party, and has been stigmatized by the Liberals as Russia's Evil Genius.

Grand Duke Sergius was born in 1857, and was married in 1884 to Princess Elizabeth, of Hesse-Darmstadt. They have no children.

News at St. Petersburg.

St. Petersburg, Feb. 17.—4:50 p. m.—The news of the tragedy in which the Grand Duke Sergius was blown up, created a tremendous sensation in St. Petersburg where the announcement by telephone from Moscow arrived during the afternoon. Owing to the intense excitement prevailing at Moscow, few particulars are ascertainable. The tragedy did not come as a great surprise, as it is known that the terrorists had already condemned the Grand Duke to death and ever since the affair of Jan. 22 the inauguration of a bomb-throwing campaign had been anticipated.

Grand Duke Sergius, who was a brother-in-law as well as uncle of the emperor, and who had exercised immense influence at court, was regarded as the most reactionary of the grand dukes. As governor general of Moscow he was intensely unpopular. His advent as governor general of Moscow was followed by expulsion of the Jews from the central provinces and throughout his administration his rigorous and harsh measures aroused the greatest hostility, especially among the students.

Grand Duke Sergius was the wealthiest member of the imperial family. He was tall, handsome and cordial in manner, in spite of the ruthless fashion in which he exercised his authority as governor general. He had adopted two children of his brother Paul who was banished on account of a morganatic alliance. Sergius' record as a soldier was not brilliant. He suffered a disastrous defeat at the hands of General Kuropatkin during the famous Koursk manoeuvers.

Complants Against Kuropatkin.

St. Petersburg, Feb. 18.—The arrival in St. Petersburg of General Grippenburg, former commander of the Second Manchurian army, who reached here at mignight, has caused a good deal of sensation in military circles.

The general frankly avows he relinquished his command after the recent attempt of the Russians to flank Field Marshal Oyama because, as he claims, General Kuropatkin refused to send him help when victory was in General Grippenburg's hands instead of ordering the latter to withdraw. Grippenburg will personally report on the situation to Emperor Nicholas. It is too early to say what the result will be, although it is evident that Kuropatkin's enemies are pushing their campaign against him. It is only fair to Kuropatkin to say that his friends claim that Kuropatkin's side of the story is that he only intended to make a demonstration on the force and that Grippenburg pressed the attack too far and became too much involved.

M. Witte, president of the committee of ministers, replying today to a question regarding the reports yesterday that he had resigned, said he had not resigned, though he was not anxious to remain in office.

Czar Consider Peace with Japan.

St. Petersburg, Feb. 17.—6:40 p. m.—The Associated Press learns on exceptional authority that the question of peace was formally considered by Emperor Nicholas and his ministers at a conference held at Tsarskoe-Selo yesterday. No particulars are obtainable as before the discussion began the emperor exacted from each one present a solemn promise not to divulge the slightest hint of what transpired. The belief is, however, that the possible conditions and terms were under consideration.

It is suggested in high quarters that some intimation of terms has reached the Russian government from Japan, although it is certain that it did not come through the regular diplomatic channels.

MAJ. PAKENHAM'S BODY FOUND

Recently Married, He Disappeared and Suicide Theory Advanced.

London, Feb. 18.—The mystery surrounding the disappearance of Major Harry Pakenham while on his honeymoon at Follestone, Kent, last week, has been partially cleared up by the discovery of his body on the seashore near there today.

Major Pakenham was a son of General Ralph Pakenham, and his mother was a daughter of William Clarke, of New York. He married Feb. 7, in London, Miss Markham, sister of the late Lady Annesley, and was staying with his bride at a hotel in Folkestone. Three days after the marriage Major Pakenham went out for a stroll, telling his wife that he would not be long.

The next day his overcoat was found in the harbor and a note in his pocket said he was sick, and saw no prospect of getting better. Major Pakenham contracted enteric fever during the South African war.

Cardinal Gibbons in New Orleans.

New Orleans, Feb. 18.—Delayed by recent washouts in Mississippi, Cardinal Gibbons arrived here today at 11:45 accompanied by Father Fletcher, his secretary, and Fathers Bolan, Riordan and Wheelan. A party of relatives and friends met the cardinal at Slidell, and came with him to the city. Others of his kinsmen and friends were at the depot. The cardinal, who was fatigued by his journey, was driven to the home of his brother, John T. Gibbons, where he will stay during his visit. The cardinal said he came to New Orleans to rest and recuperate.

NEW POSTAL TREATY WITH GREAT BRITAIN

President Roosevelt Has Signed Important Document.

NEWS FROM NATIONAL CAPITAL

Chaplain of the House Praises Frances Willard In Opening Prayer—Swayne Trial Still on Before Senate—Appointments of President.

Washington, Feb. 18.—A parcels uost treaty between this government and Great Britain was signed today by President Roosevelt, Secretary Hay and Postmaster General Wynne. It has already been signed by the British officials and will take effect April 1.

In the House.

The house met today at the usual hour of noon. In his prayer the chaplain, referring to the exercises incident to the acceptance of the statue of Frances E. Willard to occur later in the day, said that "By the purity of her soul, the breath and scope of her intellectual attainments, the eloquence and chastity of her speech and her unselfish devotion to the purity of the home, the state and humanity, she had won for herself the splendid and just encomium—the uncrowned queen of purity and temperance."

The house ordered a yea and nay vote on the previous question to consider a resolution which the committee on rules to disagree to the senate amendments to the statehood bill, and ask for a conference. The previous question was ordered 160 to 127, a strict party vote.

In the Senate.

The senate convened at 11 o'clock and as it was sitting behind closed doors when yesterday's session came to an end, the session was resumed today under the same conditions.

There were comparatively few senators present with the beginning, but a roll call had the effect of soon bringing in a quorum, and this was under way. The question of the admissibility in the impeachment proceedings of Judge Swayne's testimony before the house committee was still under consideration and Mr. Clarke (Ark.) who had the floor at the close of yesterday's session resumed his argument in support of admission.

The president today sent to the senate the following nominations:

Surveyor of customs, Fenton W. Gibson, for the port of New Orleans, La.

Postmasters—Alabama, J. W. Clayton, Ensley; James L. Davis, LaFayette.

Indian Territory—George S. Gray, Coal Creek.

Mississippi—Harvey E. Fitts, Aberdeen.

Tennessee—W. L. Green, Spring Hill.

Texas—Thomas J. Epperson, Livingston; James H. Danforth, Goliad; W. S. Strain, Lancaster; John N. Johnson, Rockwell.

Mill Superintendent Killed.

Raleigh, N. C., Feb. 18.—R. O. Pickard, superintendent of the Wilson cotton mills, Wilson, N. C., was shot and killed Thursday afternoon at 5 o'clock in the spinning room at the mill. He leaves a wife and son. Wiley House, a workman in a carriage factory, is under arrest, charged with the crime. He and Charles Norton, both having been drinking, went to the mill and were ordered out. Norton is said to have told House to shoot, and House, pulling out a pistol, it as alleged, did so. Pickard walked to his office and fell dead. The men escaped, but were later caught near town.

Peach Crop Injured.

Adrialville, Ga., Feb. 18.—The peach crop of this point, the largest Elberta shiping point in the world, is in doubt. Some of the growers think that in some localities the fruit is entirely killed. One grower found one alive out of 25. Another reports 75 per cent killed. Others not so much. From the best information the crop is likely damaged 66 per cent. With all the danger points ahead yet to encounter, the prospect is gloomy for a large crop.

PAYING TWO GOVERNORS.

Alabama In a Muddle Over Salaries of Its Executors.

Montgomery, Ala., Feb. 18.—Ever since the middle of last April, when Governor William Dorsey Jelks left for Las Vegas, N. M., for his health, the state of Alabama has been paying two governors' salaries of $5,000 each per annum. Acting Governor R. M. Cunningham, who was sworn into office, immediately after the departure of Governor Jelks, is receiving a governor's salary and so is Governor Jelks.

The question, then, has arisen here, has the state any right to pay two men at the same time as governor? The subject has caused considerable comment, both for and against the present state of affairs.

In official circles it is stated that the law upholds the present payment of dual salaries. There are a number of people, however, claiming that the state should have never paid two salaries and that it is time for the state to stop remitting the annual installment of Governor Jelks.

There is a certain amount of sentiment involved, but to offset this, it is claimed that Governor Jelks is a well-to-do man and does not need the salary for a livelihood. In spite of all the talk and criticism, two governors are still being paid, with no immediate prospect of a cessation of one of the salaries.

THINK FARMER KILLED FAMILY.

Texan Being Held for Murder of His Wife and Child.

Shiner, Tex., Feb. 18.—Joseph Stefka, a young farmer, ha been arrested here, charged with the murder of his wife and child.

Stefka himself brought to town the news of the tragedy, saying that on returning home from the field last evening from his work he had found the bodies of the woman and child, both of which had been mutilated.

He was closely questioned and as a result was taken into custody charged with their murder.

The woman's head had been torn away with a load of shot and two other loads had been fired into her breast.

The child was shot in the abdomen.

In the room in which the bodies lay there was evidences of a terrible struggle, and blood was scattered over the place. Joe Moth, a cousin of the dead woman, was arrested for alleged connection with the crime.

PAYS PENALTY OF CRIME.

Texas Mob Shoots Negro to Death for Criminal Assault.

Smithville, Tex., Feb. 18.—The negro charged with criminally assaulting Mrs. Paul Tiffany, was caught late last list and shot to pieces by the mob.

The negro was identified, and made a full confession. He was run to earth at Uhton, a small town about 6 miles from here.

In his confession the negro implicated three others, and it is also said that there are three women involved in the crime. Two of these parties have been arrested, and the third is now being sought.

While searching for the negro the Smithville posse found hanging to a tree the Mexican taken from the officers at Dale and lynched earlier in the evening.

Fast Train Wrecked.

Spartanburg, S. C., Feb. 18.—Train No. 37, bound for New Orleans, due here at 4:41 o'clock, was derailed at 5 p. m. near Fair Forest. The engine, mail and baggage cars were demolished. The engineer, fireman and mail clerks were injured, but not seriously. Beyond these, no one was hurt. The wreck was caused by the engine's splitting the switch. All trains are delayed.

Convicted of Forgery.

Norfolk, Va., Feb. 18.—Philip McIntyre, the alleged Tennessee forger recently arrested in New York on his arrival from Mexico and brought to Norfolk to answer the charge of obtaining $200 from the Citizen's bank of this city upon a forged draft, entered a plea of guilty in the corporation court today and asked for mercy. He was sentenced to imprisonment in the penitentiary for one year.

DARING ROBBERY IN HEART OF CHICAGO

Six Highwaymen Get Money and Make Their Escape.

TWO MEN STRUCK BY BULLETS

Twelve Employes Are Held at Bay While Office Is Robbed—Police Hasten to Secene, But No Trace of the Robbers Could Be Found.

Chicago, Feb. 18.—Twelve men have been held up by six armed robbers in the office of Max Mildenburg, proprietor of the Electric Light, Oil and Gasoline delivery, Clyborne place and Hawthorne street.

The highwaymen fired several shots as they entered, wounding two persons. They knocked another unconscious with a blow from a revolver. They then took more than $800 and escaped. There were only four men in the office when the robbers entered. F. Mildenburg, brother of the proprietor, and Julius Bensey, the clerk, were balancing the books, while Richard Hayes and James Ray, foremen of the driversfl were making their daily reports.

Without warning, the six robbers appeared and began firing. Bensey and Mildenburg dropped to the floor to escape the flying bullets, but the two foremen were struck and slightly wounded. After the shooting the robbers ordered the four men to hold up their hands. At this point eight others hearing the shooting, ran into the office. Revolvers were pointed at them and they were told to "Line up!" against the wall with the other four.

While two of the robbers kept the victims in subjection the other four took Bensey, the clerk, into the inner office and ordered him to open the safe. He complied, and they removed the contents, amounting to $800, the entire proceeds of the day's sale. The inner compartment remained locked, which contained only the private papers of the proprietor. Bensey was commanded to open this, and when he said he could not, two of the robbers struck him several blows with their revolvers, making his unconscious. Then they carried him to the outer office where they forced the 12 to lie face downward on the floor until they could be searched. When they secured all the plunder they could find, the robbers fled.

Police were sent to the scene and the neighborhood was searched, but no trace of the men could be found.

FARMS FOR CONSUMPTIVES.

Labor Organizations Advocated Way to Take Care of Their Sick.

Chicago, Feb. 18.—Tuberculosis farms to be established in different sections of the United States by labor organizations for the treatment of union workers afflicted with consumption have been advocated by President George F. Perkins, of the Cigar Makers' International union.

The cigar makers' union for a month has led under consideration the establishment of such an institution for the benefit of that organization. By a narrow margin the members voted against the plan submitted.

A new plan, now in preparation, will probably be adopted.

The new scheme is broadened to include other international unions. Perkins' suggestion is for at least four of the largest unions in the country to join hands. According to the plan, farms would be located in the country in North Cagolina, the Adirondack mountians in the middle west, and on the Pacific coast.

Fatality Narrowly Averted.

New York, Feb. 18.—At a fancy ball given in Dublin by Lord Greenville, the Duchess of Marlborough narrowly escaped a perilous accident, according to an American dispatch from London. A burning cigarette, which had been dropped upon the floor, came in contact with the Duchess' fluffy tulle skirt and in a moment her clothing was in flames. Viscount Crichton tore off his coat and smothered the flames, so that the Duchess was not even scorched.

IMPRESSIVE WORK BY BIBLE CONFERENCE

Saturday Was Great Day Among the Workers for Christ.

A GREAT MANY WERE PRESENT

The Weather Was Fair and Many Who Had Not Had the Opportunity Before Attended the Services—Three Interesting and Impressive Sermons.

The many visitors are delighted with the Florida weather. The mectings Saturday were largely attended.

The Quiet Hour service was conducted by the Rev. Dr. Sullins. It was a delightful service. Dr. Sullins gave a very deeply spiritual talk.

The morning lecture was delivered by Dr. William Lunsford. The lecture was a very polished and beautifully delivered discourse. Dr. Lunsford is a vigorous talker, and in every sense a great man. His accent betrays him as a Virginian of the old stock. No speaker has pleased the Conference more or brought greater blessing. Dr. Lunsford took for his topic, "Soul Winning." He said: "It is the desire of every Christian to be happy in his or her Christian life. All may feel good for a time. You can sit under the burning words of an interesting speaker and feel happy, but that sort of happiness ebbs like time. It is easy to get, but it is also easy to lose. The Christian life is one of activity. Christ has called you to walk by his side in Christian service, and one way in which this service is carried out is in the great work of soul winning.

"How may I become a soul winner? Every Christian is not a soul winner. Not everyone holds the key that unlocks the door of this sacred chamber. Pardon is not sufficient, neither are good incentives sufficient. There must be a new spirit imparted. The Holy Spirit must come in. Then the hard lines will leave the face, and the hard words the lips, and we shall become better qualified. After the Holy Spirit takes possession of our lives soul winning becomes a real pleasure and very natural. The first thing is to live so that men and women may be attracted to Jesus through our lives and conversations. Let me live so that men and women may come to me and say, 'You have something I want,' and you will find that you have already won them to Jesus. If we live the lives that we should live we will find that we are winning men and women to Christ. We must meet men and women at their point of difficulty. Men are not always convicted of sin. We must come down to their level. We must make our work personal and individual work."

Dr. Blackstone's Talk.

The afternoon lecture was delivered by Dr. W. E. Blackstone, who took for his theme, "Satan and His Kingdom." It was a continuation of his series of lectures on the Second Coming of Christ. He said, "It is a dark picture that God's Word paints of a terrible enemy. In Mat. 3:10 we have the words, 'Get thee hence, Satan,' spoken by Jesus Himself. Many say that there is no personal devil, that Satan in only an influence, that there is no such thing as Satan as a literal person with an individuality, but the Word of God teaches that he is a real personality, as will be seen by reference to Job. 1:7; Zech. 3:1; Mat. 4:1, 12:24; 2 Cor. 6:15; 1 Pet. 5:8; Rev. 9:11. We could not stand before his power if we did not have Jesus to come between us and him. He is the accuser of the brethren. He holds the whole world in his hand. His character is brought out in I Jno. 3:8 and Jno. 8:44, when it says that he was a sinner from the beginning, and that he is a murderer, a liar and the father of liars, and that there is no truth in him.

* * * * * * * *

"Insanity is nothing but demon possession. I believe the blues is the beginning of insanity, and we had better be careful how we yield to the blues. It is a good thing to sing when we feel the blues coming on. Satan has an organized empire, Eph. 6:12, 'For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.'

"In Gen. 3:15 a promise was made that sometime the seed of the woman should bruise the serpent's head. Christ is the only seed of the woman—He had no human father. Immediately when Christ was born, Satan undertook to destroy Him, for he recognised that He was the seed of the woman. Then, in the wilderness, he tried again, but Satan met his match here for the first time. There has been a continual conflict going on ever since.

"God has decreed that Christ should have a bride. The Holy Ghost in now preparing the bride, and at the coming of Christ, He will gather His bride to Himself. There is a continual conflict, but if we suffer with Him, we shall also reign with Him."

The Evening Service.

At the evening hour Dr. Lunsford faced a magnificent audience. He took for his text, Gen. 5:24. His subject was, "Walking with God." He said: "In the proceeding verses of the chapter, the leaders of each generation lived so many years, and died—death reigned until we come to Enoch, and it is said of him that he was not, for God took him. His life and translation had to do with his walking with God. This has been the acme of human ambition in all ages of the world. When a man walks with God, he becomes a child of confidence—slander is silenced. The first step is to recognize the divine presence. We almost fancy that we can touch the presence of our Creator. We cannot get away from the divine presence, nor does a child of God want to.

"We walk in the divine direction. It is hard at times to know the way that God is walking, but there is a way by which I can trace the divine footsteps in divine providences in human history. Joseph's life was spared that he might save the lives of a great number of people. The teachings of Zoroester were checked at the battle of Salamis. There was a providence in the sinking of the Spanish fleet. We can trace the divine footsteps in the history of countries and in individuals. William Carey, known as the consecrated cobbler, with no money or influence back of him, carried the Gospel into India when all England opposed him.

Dr. Strouse to Preach.

Dr. Strouse is announced to preach the closing sermon of the Conference Sunday night. This announcement has greatly delighted the people, who have been anxious to hear more from him. Dr. Blackstone speaks this afternoon.

THE WALDO FIRE.

Postmaster Atwater Issues Card of Thanks for Assistance Rendered.

Editor Sun: I take great pleasure, through the medium of your excellent paper, which has a large circulation in the town of Waldo, to express my hearty thanks to the volunteer fire department of Waldo for the excellent service they rendered Thursday evening in saving the Waldo postoffice from destruction by fire. Had it not been for their rapid action and the bravery and coolness of those who stood on the ladder and roof and passed up the water, the building surely would have been destroyed. No better hand-to-hand service at a fire could have been rendered by the full department of the Central City. Respectfully,

H. C. ATWATER, Postmaster.

IT ALWAYS HELPS

An ailment like consumption that has been months and years getting a foothold cannot be relieved in a week or day. Scott's Emulsion will always afford relief and often cure, but not over night. The consistent use of Scott's Emulsion will positively help the consumptive at any stage of the disease. We guarantee nothing beyond this, but we know that right living and Scott's Emulsion have done more to cure consumption than anything else.

TREES ARE ALL RIGHT.

F. D. Warner Says There Will Be a Big Crop of Peaches at Palmer.

F. D. Warner of the Gainesville Peach Orchard Company, which has an orchard of 350 acres of choice peaches at Palmer, has returned from the orchards, where he went on an inspecting tour to ascertain what damage, if any, had resulted from the recent cold.

Mr. Warner was greatly encouraged over the inspection. The trees are now in full bloom and he reports that very few, if any, blooms were killed.

Mr. Warner states that 200 acres of the orchard is now in full bloom and will bear prolificly the coming season. The only blossoms killed were of the early varieties and these will not amount to enough to consider.

Blucher and His Pipe.

Cromwell's Ironsides were smokers, and large numbers of pipes have been dug up from the sites of William III.'s camps. The wars of the eighteenth century found tobacco esteemed in all armies, and Wellington was the only general who objected to it. Even he was moved to admiration by the unconscious heroism of Blucher's pipe servant at Waterloo. Everywhere he went Blucher was attended by Christian Henneman, a hussar, carrying clay pipes and tobacco for the general's refreshment. As his share of the fight began at Waterloo, Blucher sat his charger gravely puffing away. He had reached out his hand to take a refilled pipe when a cannon ball plowed up the ground before him. He exclaimed: "Get a fresh pipe for me! I'm going to drive those rascally Frenchmen back!" It was evening before he returned, riding with Wellington over the stricken field. Where he had left him Blucher found Henneman, wounded and bleeding, but with the pipe ready according to orders. "You have been admiring my highlanders," said Wellington, "but what shall I say of this brave man?" "Well, your highlanders had no tobacco to inspire them," replied Blucher.—London Standard.

The Moon's Mission.

Some partisans of final causes have imagined that the moon was given to the earth to afford it light during the night, but in this case nature would not have attained the end proposed, since we are often deprived at the same time of the light of both sun and moon. To have accomplished this end it would have been sufficient to have placed the moon at first in opposition to the sun and in the plane of the elliptic at a distance from the earth equal to the one hundredth part of the distance of the earth from the sun and to have impressed on the earth and moon parallel velocities proportional to their distances from the sun. In this case the moon, being constantly in opposition to the sun, would have described round it an ellipse similar to that of the earth. These two bodies would then constantly succeed each other, and, as at this distance the moon could not be eclipsed, its light would always replace that of the sun.—Laplace.

The Depraved Camel.

"Any ordinary horse on the street might well feel insulted at being named in the same class as a domestic animal with that four legged impassive vehicle, the camel," writes a traveler. "Fidelity in a camel does not exist. An artist might as well depict a devoted crocodile fondling a lost child as a faithful dromedary standing over the corpse of its fallen master. Lockwood Kipling touched the core of the matter when he avowed that a man might as reasonably lavish his affection on a baggage wagon. In short, the camel is an unredeemed boor, more brutish than a mule, less sensible of endearment than even of extremes of temperature and weather. Its virtues are of the body, its great endurance compensating for a mental and moral depravity that must be labeled nothing short of amazing."

Trout That Are Not Trout.

Dr. Theodore Gill of the Smithsonian institution in calling attention to the misnaming of our native fish by early settlers instanced among others the trout. The pilgrims, finding in New England streams a fish that reminded them of the trout of England, gave it the same name, although Izaak Walton would have told them that it was not a trout, but a char. In Maine landlocked salmon and in certain lakes another salmonid fish were also called trout. In the south the name trout was given to black bass. In California a peculiar fish was named trout, apparently for no other reason than its possession of spots. The Gila river trout is not a trout at all.

Preaching at 10:30 a. m. by Dr. David Sullen, of Cleveland, Tenn., who is one of the ablest ministers in the South, who has been in attendance at the Conference, and will deliver his last talk today. He is a grand old gentleman and Christian worker, filled with the spirit, and is bound to interest those who love the spirit of true religion. Miss Munsford, the gospel singer, will be with us to bless us with sweet music. No evening service, account union service at the Tabernacle. The pastor of this church will leave today for a week's work at Micanopy. Rev. Rogers is a good man, full of enthusiasm for God, and it is needless to add that he will meet with great success at Micanopy.

At the Tabernacle there will be a union service at 3 o'clock this afternoon. Dr. Blackstone will preach in the afternoon, and in the evening Dr. Clarence B. Strouse for the first time this season will deliver a sermon. The name of Dr. Strouse, with the announcement that he will preach, is a magnet to the people of Gainesville and this vicinity, and it is needless to add that the Tabernacle will be crowded. Dr. Strouse, with that generous desire of giving the time to other people, at first strenuously objected, but such force and influence was brought to bear that he finally decided to preach. He has more admirers and friends than any other man in the Conference, and his friends were anxious to have him speak.

At Holy Trinity Church there will be services at 7:30 a. m., which will be holy communion; there will be morning prayer and sermon at 10:30 a. m., to be followed by Sabbath school at 3 o'clock in the afternoon. No evening service, in reverence to the service at the Tabernacle.

First Presbyterian Church, Rev. Thos. P. Hay—10:30 a. m., morning service. 3 p. m., Sabbath school. Lesson topic: "Jesus at the Pool of Bethesda." 6:30 p. m., Westminster League. Topic: "Glorifying God in our Homes." 7 p. m., no service.

Advent Christian Church. Rev. Joe Sherouse, pastor—Morning subject: "Raise Up and Pray, Lest Ye Enter Into Temptation." At the evening service the following Pythian Anniverary Service will be carried out: Opening hymn "America," choir; hymn 122, all sing; scripture recitation, "Paul's Defense Before Agrippa," Acts 29, pastor; prayer; duet and chorus, "Whisperings of Jesus," choir; offering; address, "Pythianism," pastor; hymn 197, all sing; announcements; hymn 54, "God Be With You Till We Meet Again;" good-bye; benediction.

Usual services at at St. Patrick's Catholic Church, Rev. P. J. Lynch.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

M'CLELLAN IN NEW ROLE.

He is Planting Pecans and Expects to Make a Fine Success.

Rober McClellan is in a new role. This might seem improbable to the friends of "Mr. Mc." as he is familiarly known, but it is a fact, and he expects within the next five years to retire from all active business and live upon the income of his new investment.

If there is a busier man in Gainesville than Robert McClellan, a reward is offered for his apprehension. Besides being actively and profitably engaged in conducting a picture and frame store, undertaker's establishment, etc., he is either secretary or treasurer of almost every lodge in town, which keeps him tolerably busy, but he found the time to plant an acre of pecan trees at his home on West Liberty street, and feels safe in the assertion that within the next five years he will be approaching Easy street, and can tell the world to go to the Dickens or somewhere else.

Mr. McClellan has just set an acre of fine pecan trees. They are of the most prolific and most delicious varieties, and will yield a nice income when once in bearing. They are budded stock, and came from the Graves Nurseries in North Gainesville.

ODD FELLOWS' HOME.

Arrival of More Guests—Present to the Home from Senator McCreary.

E. Wilder and wife of Brazil, Ind., Mrs. M. R. Newhouse of Battle Ground, Ind., and Mrs. Clay of Chicago, all stopping at Windsor for the winter, drove to Gainesville Saturday and made their friends, Mr. and Mrs. Edwards, a visit.

Mrs. E. M. Munsinger of Windsor is stopping at the Home.

Luke Palmer of Crystal Springs, Miss., is our latest arrival.

Miss Lena Pomeroy has been on the sick list, but is now able to be out.

A party from the Home enjoyed an afternoon at Alachua sink 'tother day, and caught some silver bass.

The guests of the home are very thankful to Senator McCreary, editor of The Gainesville Sun, for a very large and beautiful map of the United States presented to that institution. It will be highly appreciated by all. It will adorn the parlor.

Supper at Rochelle.

The oyster supper and entertainment which was given at the home of M. Mansfield at Rochelle for the benefit of Martha Perry Institute, piano fund, Friday evening, was well attended, and proved a great financial and social success. Notwithstanding that the "oysters that they looked for never came," there was an abundance of delicious chicken, salads and other good things to eat, and those who attended report a good time. Twenty-nine dollars was realized, which will go on the payment of the piano purchased by the school.

Attention, Knights of Pythias.

W. C. T. U., Attention.

The Union will be addressed by Mrs. Stratton, State evangelist of Tennessee, who is in the city attending the Bible Conference. She will speak on Monday afternoon at 3:30 at the reading room. All members are urged to avail themselves of this opportunity.

Street Car Employes May Strike.

New York, Feb. 18.—After a protracted meeting behind closed doors, at which 1,000 employes of the Interborough Rapid Transit company were present, it has been determined to again make sweeping demands on the management of the road, failure to grant which it was declared by some of those present would result in a general strike on the Interborough system, both subway and elevated, March 1. There have been several meetings of a similar nature in the past year, and each time the troble has been settled after conference with the officials of the road.

As the Guide Understood It.

A party of hunters in the wilds of North Carolina, wishing to cross the lake upon the banks of which they were encamped, made the necessary preparations. Then they asked the guide if he could row.

"Ro'?" he queried in answer. "Ro'! No, I reck'n not. Reck'n I never tried it."

Under these circumstances the party made arrangements to do the rowing themselves, and were consequently astonished when the guide, stepping into the boat, seated himself at the oars and prepared to be the motive power.

"Why," exclaimed one of the party, "I thought you said you couldn't row?"

The guide was plainly puzzled and could be heard to repeat to himself several times "Ro'! Ro'!"

"I reck'n'd you all meant ro' like a lion. I can't do that. But pull an o', why, I've done that all my life. I shorely can pull an o'."—Louisville Courier-Journal.

The Edge of a Windstorm.

A curious example of how sharply the edge of a windstorm may be defined is reported by the captain of a bark. When off Valparaiso, the captain says, a whirlwind came along and passed over the stern of the vessel. A great sea accompanied the wind, and every sail and movable thing on the after part of the ship was carried away. The forward part of the vessel was untouched by the storm, which passed away in the distance, leaving a train of foam in its wake.

Java's Boiling Lake of Mud.

One of the greatest natural wonders in Java, "the fire island," a large lake of boiling mud, is situated almost in the center of the plains of Grobogana, fifty "pauls" to the northeast of Solo. It is almost two miles in circumference, and in the center immense columns of soft, hot mud may be seen continually rising and falling like great black timbers thrust forth and then suddenly withdrawn by a giant's hands. Besides the phenomenon of the columns there are two gigantic bubbles near the western edge which fill up like huge balloons and explode on an average three times per minute.

Killed by Imagination.

A workman on the Siberian railway was accidentally locked into a refrigerator car and was afterward found dead. Imagining that he was being slowly frozen to death, he had recorded his sufferings with a piece of chalk on the floor. The refrigerating apparatus, however, was out of order, and the temperature in the car had not fallen below 50 degrees F. throughout the journey.

The Better Way.

"Positively the worst struggle I ever had in the water," said a young man who had been at sea, "was one night trying to save a man with a wooden leg." "Man," said an old Scotchman who was quietly listening, "if ye had got a bit of rope ye could hae saved the man quicker wi' it than ye could dae wi' ten widden legs."

The cost of living in Mexico is reported to be increasing. Then why live in Mexico?

Mormons never play poker. This may account for the fact that they are able to support so many wives.

There have been 5,587 postoffices discontinued since the establishment of rural free delivery in this country.

Twenty thousand people have applied for medals and pensions under the provisions governing the Carnegie hero fund.

Arizona seems to prefer staying out in the cold, rather than getting on the "water wagon" with Oklahoma and Indian Territory.

The President is looking for a $100,000 man to build the Panama Canal. There are a great many in Gainesville who would take the job.

New York aldermen now perform marriage ceremonies for nothing. How can any of the New York maidens resist this opportunity to get a bargain?

Colfax, Wash., is said to be the wealthiest town of its size in the United States, its 2,500 people having an average bank deposit of $845 47 per head.

With John B. Stetson once more president of the board of trustees of Stetson University, the dove of peace may now hover around and the school resume its former activity.

Indian Territory and Oklahoma ought to send two good Democratic Senators to Washington out of gratitude for the fact that the Democrats fought their battles in both House and Senate.

The Texas Legislature is feeling favorably towards the bill for taxing "old bachelors." We did not think the old maids were getting so plentiful in Texas. Where did they come from?

It was very kind of Col. Henry Watterson of The Louisville Courier-Journal to spend such a long vacation in Europe and give the New York smart set an opportunity to "cut up" again.

The Sumter County Times will be enlarged next week to a six-column quarto. With a new press and better work, The Times should receive the liberal patronage its hustling publishers deserve.

It has been suggested to the Missouri Legislature that it call for "Republican volunteers" who can prove that they have never been indicted or connected with "graft," for consideration as Senatorial possibilities.

The railroads say they do not violate the law, and that we do not interpret it right. As the laws were written by their attorneys, probably they do know more about the way they were intended to be interpreted.

A Jackson, Miss., woman takes the cake in divorces. In suing her husband for divorce she claims alimony of the money he won in a suit for the alienation of her affections. This woman almost belongs to the Chadwick class.

RUSSIA'S OPPORTUNITY.

We suppose Russia will be fearfully angry at the United States if words of condolence are not forthcoming in regard to the assassination of the Grand Duke Sergius. There is no sane person but what abhors such proceedings, no matter how hated the victim may be, but people who have been persecuted for ages by such tyrants cannot be expected to be anything but a frenzy, and are not responsible for their acts. To be robbed of their liberty as a free republic, like the Poles, and have their country parcelled out to different autocrats, is too much for them to endure, and it is not to be expected that they will let slip an opportunity for revenge.

Sergius, the tyrant, is dead and the Czar is now freed from his domineering influence, and there is now a chance for "little father," if he loves his children, to do something to ameliorate their sufferings.

Being opposed to the people, the uncle of the Czar, Sergius, was hated by them, and so long as he lived there was no chance for them. Now that he is out of the way, although his death was most horrible and the method deplored, there is an opportunity for the Russians to be united, if the Czar will rise up and proclaim himself the ruler.

THE STREETS.

It is well known to The Sun that the chairman of the street committee has no easy task and not sufficient means to do the work in hand, nor has The Sun any desire to criticize the efforts of this committee. It is a general complaint in nearly every municipality that the committee on streets has its funds exhausted long before the opportunity offers for their being replenished.

Another matter should in some manner be remedied, and that is the collection of funds levied by tax for the highways. The apportionment for streets is made, and the amount would be sufficient for the needs, if it is collected, but in several instances the collections have fallen short more than three-fourths the amount, which places the funds available at too small a figure to hardly begin the work. This is a matter that should be solved in some manner.

The Sun and every citizen knows that the committee is steadfast in its loyalty to the city, but the streets are in such a condition as to cause comment and it is hoped by bringing the matter before the people some solution of the annoying problem may be brought about.

Sam Russ, editorial writer of The Times-Union and one of the best informed men in the State on Florida politics, asks the following question and volunteers this assertion, evidently intending it for the action of the Marion county Democratic committee in declaring vacant the seat of Hon. C. M. Brown as State Senator from Marion county, and petitioning the Governor to call an election to name his successor: "Has a county executive committee the authority to declare vacant a seat in the State Senate? Isn't the Senate the judge of the qualifications of its members? Certainly it is demoralizing to find a Democratic committee beseeching the Governor to take authority never given him by law. If a Governor had the power to 'purge' a legislative body would he not become a Cromwell on occasion? And how can Democrats advocate such usurpation?"

The Pensacola Daily News says: "Washington city bartenders tell the newspaper interviewers that there has been an unaccountable and vast demand for long toddies in the past week." There has been about fifty Pensacola citizens in Washington the past week to attend the Swayne trial.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The Democrats of Marion and Sumter counties have been called in convention to nominate a successor to Hon. C. M. Brown; and the executive committee of the district have declared the position of Senator vacant and requested Governor Broward to call an election to fill the vacancy. Possibly the State Senate may have a word or two to say about this, by way of a wind-up. When did the Democracy of Florida return to the convention plan of nomination?—Lake City Index.

The "Value of Swamp Lands" is a new pamphlet issued by the German Kali Works, 93 Nassau street, New York. It is a treatise on how to handle in a scientific manner such soils as have been reclaimed by drainage or otherwise. Illustrations are given to fully explain the text. Every farmer should have a copy, and can get one by writing a postal card to the address above.

The Republican railroad Senators are hopeful of holding up the bill, which recently passed the House, when it comes to the Senate, but as it is understood that Senators Culberson and Bailey of Texas will handle this matter in that body, that "hope" will probably be "crushed to the earth."

If the State papers don't stop publishing items about the "freezes in Florida," the impression will get out that it is a frigid zone hereabouts. Change the topic to "spring politics."

A New Jersey postmistress has resigned because the salary of the office is only $14,75 a year. She ought to have incorporated it and watered the stock.

Jeweler's Body Found.

Union, S. C., Feb. 18.—Fred G. Trefzer, the jeweler, who disappeared from his home several days ago, going off with his pistol early in the morning was found in the forest several miles from Union. The body was found by a brother-in-law, who was searching for it. There was a bullet in his heart, it being evidently a case of suicide. Trefzer leaves a wife and five children.

SOCIAL LIFE AT BONNIE MELROSE

That Progressive Burg is Full of Gaiety at This Season.

MANY FINE SOCIAL FUNCTIONS

Comprising Card Parties, Musical Dances, Theatricals, Etc., All of Which Go to Make Life Enjoyable. Meeting of Quarterly Conference.

Melrose, Feb. 18.—Rev. P. R. Bridges, presiding elder of the Gainesville district, was in charge of the quarterly conference which met at the Methodist church on Friday, Saturday and Sunday. Each church in the charge was well represented. Three new members were admitted by letter.

The Ladies' Aid Society had a tea at the Town Hall on Tuesday evening with a financial result of over $15.

J. A. Remmel met with a rather unusual accident while out hunting last week. On rising from lunch he stepped on a very sharp knife which had been left on the ground, the blade penetrating the shoe and foot. Luckily no veins were cut, although bleeding profusely. The wound was promptly tied up and barring a few days of enforced rest at home, no evil consequences resulted.

H. Jackson has just finished a very comfortable covered buckboard for O. C. Grimes to carry Uncle Sam's mail and passengers.

Mrs. Charles Roberts, Miss J. Roberts, Mrs. Wm. Thomas and Miss L. Mattack, all of Westchester, Pa., are the guests of Mrs. A. M. Darlington.

Mrs. O. Waters and Mrs. Gorberling of Chicago, Ill., are new arrivals.

The Social Tea given by the Ladies' Literary Society at their hall on Saturday evening was a most enjoyable affair, about forty being present. The hall and table were most charmingly decorated with plum blossoms in great profusion, tied here and there with pink bows to match the pink lamp shades. After a very good supper all the guests were called upon by Dr. Whitehead to show their skill at free hand drawing, the subjects being drawn by lot. A great deal of amusement was caused by the various results, showing animals not heretofore known to natural history. Each guest had to write on a slip the name of each drawing. Mrs. J. W. Johnson and Miss P. Darlington had to cut for the prize given for the most correct list, Miss Darlington being the winner. Afterwards cards were played until time for going home.

The dance given by Mrs. J. W. Remmel and Mrs. J. B. McDonald on Thursday evening at the Ladies' Hall was a great success, about sixty guests being present. A string band of four pieces furnished some excellent music for the dancers, a spirited Virginia reel of twelve couples closing a most delightful evening.

Mrs. A. M. Darlington entertained a number of her friends at cards on Friday afternoon, and Mrs. von Noszky on Saturday evening.

The Howze Dramatic Company showed at the Town Hall for two nights. It is a good show and deserves patronage.

MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

The Weather.

Many of our Northern visitors who have felt that the weather for the past few weeks has been quite severe, will no doubt be glad to learn what they have escaped by being here. To show what the weather has been in the southern portion of Michigan, we publish the following from a letter sent by the publisher of the Eaton Rapids Journal to W. W. Ashley of The Sun office:

"Eaton Rapids, Mich., Feb. 14.—Dear Win: Five weeks ago today you left here in a snow storm and it has continued most of the time since. Fifteen degrees below zero this morning and all trains are from one to five hours late, and some have been abandoned entirely. Almost impossible to keep warm in the front office. Folks are all well and I am growing tougher and grayer every day.

"J. S. HAMLIN."

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy, for I have used it with perfect success. My child, Garland, is subject to severe attacks of croup, and it always gives him prompt relief." For sale by all druggists.

Property Owners Slow.

Tax Assessor W. W. Colson, one of the most competent officials the county has ever had in this office, states that work in his department is progressing nicely, but makes complaint that owners of property in some instances are somewhat tardy in making returns. Property is constantly changing ownership, and Assessor Colson states that the only way in which he can keep track of transfers, etc., is to have those interested make prompt returns. It is not only to the interest of the assessor, but to the interest of the property owner as well, that prompt returns be made, both in real and personal property.

Another Case of Rheumatism Cured by Chamberlain's Pain Balm.

The efficacy of Chamberlain's Pain Balm in the relief of rheumatism is being demonstrated daily. Parker Triplett of Grigsby, Va., says that Chamberlain's Pain Balm gave him permanent relief from rheumatism in the back when everything else failed, and he would not be without it. For sale by all druggists.

A Famous Seed House.

An instance of commercial development and growth to proportions unusual is cited in the career of the well-known seed firm, D. M. Ferry & Co., of Detroit, Mich. Since its establishment half a century ago the company, following out principles of strict business integrity and building upon unquestionable merit, has steadily grown until the name of Ferry's Seeds is now a household word with every planter in the land.

Ferry's seeds are famous for their purity, freshness and reliability. The greatest of care is exercised in their growing and selection and only seeds of the highest possible standard are placed upon the market. Every package has behind it the reputation of a house whose standards are the highest in the trade. A fresh stock, just received from the growers, is carried by dealers everywhere.

All farmers and gardeners ought to have a copy of the 1905 seed annual of the Ferry company. It contains information and suggestions that are invaluable. The annual will be mailed free to anyone addressing D. M. Ferry & Co., Detroit, Mich.

Conspirators.

It will surprise many to know that Washington Irving was a confessed orchard thief. Once, while picking up an apple in his own orchard, he was accosted by an urchin of the neighborhood, who, not recognizing him as the proprietor, offered to show him a tree where he could get some better apples than those.

"But," said the boy, "we must not let the old man see us."

"I went with him," said Irving, "and we stole about a dozen or two of my own apples and then went shares."

Thank You.

"Thanks" is a miserable expression commonly used by persons who have not had the advantages of good breeding. Every favor received and civility shown deserves to be recognized, and the smallest acknowledgment the recipient can make is to say or write, "Thank you." The vulgarity of "Thanks" is on a par with the postal card correspondence.

Mistakes.

When you make a mistake, don't look back at it long. Take the reason of the thing into your own mind and then look forward. Mistakes are lessons of wisdom. The past cannot be changed. The future is yet in your power.—Hugh White.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucous and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment, and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all druggists.

Indians Will Be Hanged.

SKIN DISEASES

Altoona, Pa., June 20, 1903.

I was afflicted with Tetter in bad shape It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LEAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S.S.S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable. Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.

Man Moved His Head and Caused Instant Death.

New York, Feb. 18.—Frederick Wolferost, a farmer living in Jamaica, L. I., is dead in a hospital here, caused by moving his head after an operation for a fractured vertebrae caused by a fall on the ice.

The surgeons were absent and Wolferost was under the care of his brother to whom he complained of feeling uncomfortable and expressed a desire to move his head. The doctors had placed it in a supporting aparatus after having removed the broken bone and relieving the pressure on the spinal cord. The farmer's brother helped him move slightly and the patient immediately collapsed.

Stimulants failed to restore him and in a few minutes he was dead.

DEATH DUE TO POISONING.

Physicians Analyze Stomach of One of Hoch's Many Wives.

Chicago, Feb. 18.—Drs. W. S. Haines and O. W. Lewke, who have been analyzing the stomach and liver of Mrs. Marie Welker-Hoch, the latest alleged victim of Johann Hoch, declared definitely today that the woman's death was due to arsenical poisoning. Dr. Lewke, who is the coroner's physician, said the arsenic in the stomach indicated an intent to murder.

"With the evidence of four analysis before us," said Dr. Lewke, "there is no doubt left that Mhs. Welker died as the result of work which would have done credit to a Borgia. Each test showed quantities of arsenic in both stomach and liver large enough to kill."

NEWS FROM THE FAR EAST.

Japs and Russians Clash in Southeast Manchuria.

Tokio, Feb. 18.—The following official announcement was made here today:

On Thursday the enemy's artillery bombarded our position in front of Shaitzepao, Hanchenpao, Mengtapao and other vicinities.

Today at 5 in the morning the officer in command of our scouts encountered and repulsed a detachment of the enemy's infantry about 100 strong near Pienliupao. The enemy, who had come houthward since Wednesday retreated north to Loukarfang, 10 miles northwest of Chitaitse.

St. Petersburg, Feb. 18.—A dispatch from Sachutun, Manchuria, says 11,000 Japanese troops and Chinese bandits are reported to be in Southeast Manchuria in the neighborhood of Calbachchon, 45 miles northwest of Gunshu Pass, when they intend to operate against the railroad. A detachment of Russian frontier guards with two guns encountered the Japanese on Feb. 14, and defeated them. The detachment, however, while advancing, was surrounded by two companies of Japanese cavalry, four companies of infantry and a large band of Chinese bandits, about 45 miles of Hunshu pass, and lost heavily. One gun was lost and nearly all the guns, horses and a number of gunners were killed.

MUTUAL PLAN WINS OUT.

Differences in Equitable Company Is Amicably Settled—Hyde Wins.

New York, Feb. 18.—James W. Alexander and James H. Hyde were re-elected president and first vice president, respectively, of the Equitable Life Assurance sicety, at the adjourned meeting of the directors. All the other officers whose terms had expired were re-elected.

A resolution was adopted recommending that policy holders be given the right to vote for directors, and a committee which includes President Alexander and Vice President Hyde, was appointed to carry out this step, which is practically the policy of mutualization advocated by President Alexander.

The results outlined were reached after a protracted session ,which was marked at times by considerable feeling. Friends of Vice President Hyde were disposed to view the outcome as a victory for their side, but in other quarters the result was regarded as a general compromise, in which the contending factions met half way.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. Bucklen & Co., Chicago, Ill., and Windsor, Canada. All druggists.

CRUSHED TO DEATH BY TRAIN.

Man Caught in Narrow Place and Receives Injuries that Cost Life.

Valdosta, Ga., Feb. 18.—Samuel Barker, a prominent farmer of this county, was crushed to death here by a Georgia Southern and Florida railroad freight train.

Mr. Barker drove to the plant of the Georgia Fertilizer and Oil company to get a load of guano and was standing at the edge of the railway platform when a locomotive backed a string of freight cars down the track, catching him between the cars and the platform.

The deceased was a large man, and as the space between the cars and the platform was only a few inches wide, his body was terribly crushed, several ribs were broken, his skull fractured, and he sustained internal injuries.

He was removed to the Valdosta sanitarium, where medical attention was given him, but he lived only a few hours.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

MET DEATH IN HOTEL FIRE.

One Woman Dead and Fifteen Narrowly Escape from Building.

New York, Feb. 18.—A woman believed to be Miss Lydia Themel, of Philadelphia, was burned to death and 15 men and women narrowly escaped in a fire which damaged the hotel Winton, on One hundred and Tenth street and Broadway, early today.

The dead woman was about 30 years old. The others who escaped from the hotel refused to give their names.

The fire started in a room on the second floor of the hotel and when firemen arrived the flames were bursting from the windows in the upper stories.

Miss Themel's body was found lying in a hallway, where she had been over come by the smoke and flames. She was badly burned and died before a physician reached her.

The loss on the building was about $4,000.

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and $1 bottle. Sold by W. M. Johnson.

Flames Consume Six Children.

Boyne City, Mich., Feb. 18.—Three children were burned to death at Springdale, 16 miles from here early Thursday their father, Frank Pearsons, was so badly burned and also frozen, while fighting the fire and trying to rescue his children that he will probably die. A defective flue is thought to have caused the fire.

Edwards, Ill., Feb. 18.—Fire of a mysterious origin in the house of Manning Harris, a coal miner, burned the bodies of Harris' three small children to a crisp early today. Harris and his wife were rescued, but were horribly burned.
